SUMMARY

Full Stack Developer and UI/UX designer with 2+ years of experience shipping web and mobile products with React.js, Next.js, TypeScript, Node.js, MongoDB and React Native. Published iOS and Android apps, built a real-time AI voice assistant on the Gemini Live API, and delivered client platforms for international businesses. Pursuing an MBA in Business Analytics.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, Framer Motion, GSAP, Responsive Design, Server-Side Rendering (SSR)

Mobile: React Native, Expo, Android Studio, App Store and Google Play publishing

Backend and AI: Node.js, Express.js, REST APIs, Socket.io, JWT, Stripe, Gemini Live API, LLM Integration, RAG

Databases and Cloud: MongoDB, MySQL, Firebase, Supabase, AWS, Vercel, Hostinger

Tools and Practices: Git, GitHub, Figma, WordPress, VS Code, Agile/Scrum, UI/UX Design, Code Reviews, Design Systems

PROFESSIONAL EXPERIENCE

Full Stack Developer, Codeeaq **2025 – Present**

Remote, Trivandrum, India / UAE

- Build full-stack web and mobile products for international clients using React.js, Next.js, Node.js and MongoDB.
- Lead frontend architecture, TypeScript coding standards and Tailwind CSS design systems shared across products.
- Shipped cResidence and cParish, two React Native (Expo) apps live on the Apple App Store and Google Play.
- Built Ceeq, a real-time multilingual AI voice assistant (Gemini Live API) that captures sales leads on codeeaq.com.
- Integrate Stripe, Firebase and REST APIs, working directly with clients to turn requirements into production features.

Frontend Developer, Entrix Labs **2024 – 2025**

Hybrid, Technopark, Trivandrum, India

- Converted Figma designs into responsive, production-ready React.js and Next.js interfaces for client applications.
- Delivered Meryal Waterpark (Qatar's largest waterpark) and Uoto (Dublin Airport car rental) from design to deployment.
- Integrated REST APIs and payment gateways; sped up page loads with server-side rendering and bundle optimisation.
- Built reusable component libraries with designers, backend engineers and QA in Agile/Scrum sprints.

MERN Stack Developer Intern, Stackup **2023 – 2024**

Onsite, Technopark, Trivandrum, India

- Built full-stack features with React.js, Node.js, Express.js and MongoDB for live products used by real users.
- Designed REST APIs and MongoDB data models for user management, authentication and content modules.
- Took part in Agile sprints, code reviews and daily stand-ups.

PROJECTS

ServeSites | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS* **servesites.com**

- Nonprofit donation platform: donor dashboard, branded giving embeds, live campaigns and a no-code page builder.

Ceeq AI Assistant | *Gemini Live API, React.js, TypeScript, Firebase* **codeeaq.com**

- Website voice assistant with interruptible, multilingual conversations, links to the right page and validated lead capture.

Ceeq Bookings | *React Native, Expo* **Mobile app**

- Hourly space-booking app with map search, time-slot booking, UPI or pay-at-venue checkout and a hosting mode.

School Bus Auto Allocation | *React.js, Leaflet, OpenStreetMap* **Open source**

- Module for any school management system that assigns students to the nearest bus route and tracks buses live on a map.

EDUCATION

MBA in Business Analytics, Amrita University **2026 – Present**

Bachelor of Arts in English, University of Kerala **2020 – 2023**
